EDUCATION

University of Toronto (St. George)

Bachelor of Science, Computer Science Specialist   June 2021

PROFESSIONAL EXPERIENCE

BioRender, Y-Combinator Batch W18   Toronto, ON

Full-stack Web Developer Intern   September 2017 – March 2018

- Collaborated with designers and other developers to build a full-stack MERN application that helps people create scientific figures, diagrams, and illustrations
- Contributed to the development and launch of innovative features that impressed investors during Y-Combinator demo day, resulting in funding secured for the company
- Architected and implemented a tool that enables users to add geometric shapes, lines and arrows to their illustrations
- Participated in QA meetings, providing valuable insights and feedback to improve the application's functionality and user experience

PROJECTS

CK Portfolio

Personal Website   January 2023 – March 2023

- Designed and developed a personal website to showcase my skills, projects, and experience as a web developer
- Learned how to connect a personal domain to a project hosted on Github Pages

Photosnap

Frontend Mentor Project   April 2022 – May 2022

- Built a marketing website for a photo-sharing application using HTML, SCSS, and JavaScript
- Utilized advanced CSS tools like Flexbox and CSS Grid to enhance layout and ensure optimal viewing experiences across various devices and screen sizes

The Planets

Frontend Mentor Project   February 2022 – March 2022

- Created a multi-page website that features each planet in our solar system using HTML, SCSS, and JavaScript
- Refined skills in transforming a given design into a functional and responsive website
